GTM PAYROLL SERVICES LAUNCHES HOUSEHOLD EMPLOYEE SELF-SERVICE!

GTM “Goes Green” Again with Employee Self-Service for Clients’ Employees

CLIFTON PARK, NY (February 5, 2009) – On the heels of the launch of their [Paperless Payroll Solution for Household Employers](#), GTM has done it again, and taken their “green” efforts even further, with a NEW Employee Self-Service (ESS) portal for Household Employees.

The new release of Employee Self-Service provides a secure, user-friendly, and personalized, real-time access to payroll data through GTM’s custom developed web portal to an employee’s personal homepage and information on record with GTM.

“When household employers choose GTM’s Paperless Payroll Solution, they can rest assured that their employee’s information and data is protected by multiple layers of security, including web site encryption,” commented Todd Maddalone, Vice President of Operations.

GTM’s ESS allows clients’ employees to manage and track job-related tasks that otherwise would have fallen to the household employer, such as:

- **Personal Information Updates** – Employees can view their contact profile, and download employment forms such as W-4, I-9, withholding and direct deposit authorization information.
- **Historical Payroll Information** – Employees can view and print current and historical payroll records.
- **Employees get a Personal GTM Homepage, available online 24/7** – Quick and convenient access to: all their personal information; FAQs; send confidential emails to their employer; and even Refer-A-Family or Friend.

“An increasingly prevalent trend in human resources – GTM is leading the way for household employee management with our new Household ESS,” noted GTM Founder and CEO Guy Maddalone. “The ESS is part of a larger internal movement at GTM, towards providing easier account access and Web-enabled services that encompass superior client support.”

GTM offers clients every resource to reduce time and money spent in the effective management of household employment, such as free tax and overtime calculators and documentation on legal responsibilities, among other tools. By providing employees with their own portal to payroll history and account information, GTM continues to further their efforts in aiding household employers with accuracy and compliance, while saving them valuable time - typically spent maintaining records and producing this information on the employee’s behalf.
